PLUTO HORIZON · FOR COLLEGES & INSTITUTES

Give every graduating learner a head start on money.

Pluto Horizon is a month-by-month money simulation for the first years of work, with **certificates that carry your institution's name**: one join code per cohort, a roster, usage reports.

WHY INSTITUTIONS SAY YES

A head start on money, practised before it counts.

📄 The first offer letter is a test nobody prepared them for
Package, in-hand pay, notice periods and bonds look alike until money is on the line.

🏠 Rent, credit and EMIs arrive in month one
Learners meet them for the first time with real money and real consequences.

📚 Classroom finance stops at theory
Horizon lets learners live the decisions in a simulated bank and see what each choice does.

🏷 Your name goes on the proof
Module and full-course certificates carry your institution's logo once approved.

HOW ROLLOUT WORKS

1
Talk to us
Share your cohort size and goals; we agree licences and any trial.

2
Set up
Your team signs in to the portal, adds your logo and invites colleagues.

3
Learners join
Share the join code. The first module is free for every learner.

WHAT YOUR INSTITUTION GETS

Join codes and invites
Learners join with your institution's code; no spreadsheets of passwords.

Roster, licences and seats
See who has joined; manage seats and the contract term from one portal. A trial is available.

Usage analytics and an impact report
Cohort-level activity and completion you can share with management.

Your logo on certificates
Upload your logo; we review it before it appears on learner certificates.

Tools that stay with learners
26 calculators on their own numbers, saved on their own device only.

Verifiable certificates
Module and full-course (Career Foundations) certificates, each with a public verification page.

THE COURSE · 9 MODULES · 43 LESSONS

Your First Job FREE
